

March 2016 Newsletter

FileMaker 14 Upgrade & Email

FileMaker 14 is now available to upgrade. There is one item that needs to be prepared before moving to this version. The email plugin and module will need to be upgraded, we have arranged a special price for the month of March and April. The benefit of the upgrade is that emails can now be sent by the server instead of the clients machine, which is a big time saver for bulk emails. Contact the office to take advantage of our special price and reduce the time it takes for bulk emails.

Staff Professional Development Module

Course Code	Course Name	Attachments
FA	First Aid Course	First Aid Details staff prof dev.png

Name	Attendees
<input type="checkbox"/> Mackie Mrs T	
<input type="checkbox"/> Armitage Mr G	
<input type="checkbox"/> Denbigh Mrs J	
<input type="checkbox"/> Adams Mr D	
<input type="checkbox"/> Staff T	

HR staff can manage all Group professional development courses and individual staff can add any non accredited courses themselves.

All staff can print their own professional development data and HR staff can print for all staff. Please let me know if you would like further details.

Denbigh Administration can store all your staff professional development. Staff can view all their own courses. PD delegate can set accreditation types for staff.

Please contact us for more details or a demonstration.
